The New Russian Foreign Policy

Nicole J. Jackson

The New Russian Foreign Policy:

The New Russian Foreign Policy Michael Mandelbaum, 1998 This book surveys Russia's relations with the world since 1992 and assesses the future prospect for the foreign policy of Europe's largest country Together these essays offer an authoritative summary and assessment of Russia's relations with its neighbors and with the rest of the world since the collapse of the Soviet Union

Russian Foreign Policy Jeffrey Mankoff, 2011-10-16 Now thoroughly updated this widely praised book provides a thoughtful and balanced examination of the development of Russian foreign policy since the end of the Cold War This edition also places developments of the past two decades into the broader sweep of Russian history Jeffrey Mankoff argues that Russia's more assertive behavior since Vladimir Putin became president in 2000 has resulted from both a deep seated consensus among its elite about Russia's identity and interests as well as a favorable convergence of events including the persistence of high energy prices and the check on U S power resulting from the wars in Iraq and Afghanistan Because these factors are the result of long term trends the author argues that there is little reason to expect that the election of Dmitry Medvedev will fundamentally alter Russian foreign policy behavior Presenting an evenhanded treatment of controversial issues Mankoff analyzes Russia's interactions with major global actors including the United States the European Union the Commonwealth of Independent States and China Despite Moscow's often harsh rhetoric and the deployment of Russian forces against Georgia in 2008 the author convincingly demonstrates that there is little reason to fear a return to a Cold War like standoff with the West Instead he argues today's Russia is more interested in restoring what its leaders consider to be its rightful place among the world's major powers rather than in directly challenging the West Thoroughly researched and knowledgeable this book will be invaluable for all readers interested in Russia

Russian Foreign Policy in the Twenty-first Century and the Shadow of the Past Robert Legvold, 2007 Because the turbulent trajectory of Russia's foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation history offers a special vantage point from which to judge the current course of events In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history The authors explain the impact of empire and its loss the interweaving of domestic and foreign impulses long standing approaches to national security and the effect of globalization over time Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today These patterns are driven by the country's political makeup geographical circumstances economic strivings unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia's approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve A truly unique collection this volume utilizes history to shed crucial light on Russia's complex occasionally inscrutable

relationship with the world. In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined.

The Emergence of Russian Foreign Policy Leon Rabinovich Aron, Kenneth Martin Jensen, 1994 The emergence of a new Russia a post communist European state with a vast store of nuclear arms raises many complex questions What kind of foreign and defense policies will Russia pursue into the 21st century What will be the impact of the loss of the former empire And what are the implications for western policymakers This volume attempts to answer those questions by examining Russia's relations with the Near Abroad the newly independent states on its borders the Commonwealth of Independent States CIS and its Pacific neighbors as well as its peacekeeping role in the former Soviet states In addition the book explores the historic patterns of Russian foreign policy issues of internationalism accommodation Soviet Russia the Soviet legacy institutional mechanisms for policymaking and the effects of domestic policy The Emergence of Russian Foreign Policy concludes with a discussion of western perceptions of Russia's evolving national security doctrine and the future of Russian American strategic relations

Russian Foreign Policy Nikolas K. Gvosdev, Christopher Marsh, 2013-08-22 In a truly contemporary analysis of Moscow's relations with its neighbors and other strategic international actors Gvosdev and Marsh use a comprehensive vectors approach dividing the world into eight geographic zones Each vector chapter looks at the dynamics of key bilateral relationships while highlighting major topical issues oil and energy defense policy economic policy the role of international institutions and the impact of major interest groups or influencers demonstrating that Russia formulates multiple sometimes contrasting foreign policies Providing rich historical context as well as exposure to the scholarly literature the authors offer an incisive look at how and why Russia partners with some states while it counter balances others

Russian Foreign Policy and the CIS Nicole J. Jackson, 2003-09-04 This book investigates the options the debates and the ensuing policies of the fledgling Russian government It examines the evolution of policy from the collapse of the Soviet Union in December 1991 until the Presidential elections in June 1996 Analysing Russia's actions in the context of contemporary foreign policy theory Nicole J Jackson discusses and compares three key conflicts the separatist war between Moldova and Transdniestria the separatist war between Georgia and Abkhazia and the civil war in Tajikistan It will be of interest to students and researchers of international relations security foreign policy analysis and Russian studies

The New Russian Foreign Policy , 1998-01-01 This book surveys Russia's relations with the world since 1992 and assesses the future prospect for the foreign policy of Europe's largest country Together these essays offer an authoritative summary and assessment of Russia's relations with its neighbors and with the rest of the world since the collapse of the Soviet Union

The Foreign Policy of the Russian Federation Alexander V. Kozhemiakin, Roger E. Kanet, 2016-07-27 Providing a current assessment of the major developments in Russian foreign policy since the collapse of the Soviet Union at the end of 1991 the book begins with an examination of the emerging trends in Russian policy and the impact of domestic political and economic factors on Russian policy Succeeding

chapters outline the development of Russian policy in the major geographic regions of the world the new states of the near abroad Central Europe and the Balkans the West Asia the Middle East and the developing countries Realignments in Russian Foreign Policy Rick Fawn,2004-11-23 This collection provides international perspectives on the evolution of Russia's foreign relations and analyses official Russian responses to major regional and international developments including NATO and EU enlargement and the post September 11 international war on terrorism **The Foreign Policy of Russia** Robert H. Donaldson, *Explaining Russian Foreign Policy Behavior* Alexander Sergunin,2016-03-22 This book aims to explain the reasons behind Russia's international conduct in the post Soviet era examining Russian foreign policy discourse with a particular focus on the major foreign policy schools of Atlanticism Eurasianism derzhavniki realpolitik geopolitics neo Marxism radical nationalism and post positivism The Russian post Soviet threat perceptions and national security doctrines are studied The author critically assesses the evolution of Russian foreign policy decision making over the last 25 years and analyzes the roles of various governmental agencies interest groups and subnational actors Concluding that a foreign policy consensus is gradually emerging in contemporary Russia Sergunin argues that the Russian foreign policy discourse aims not only at the formulation of an international strategy but also at the search for a new national identity Alexander Sergunin argues that Russia's current domestic situation defined by numerous socio economic inter ethnic demographic environmental and other problems dictates the need to abandon superpower ambitions and to rather set modest foreign policy goals

Russia's Foreign Policy Aldo Ferrari, Eleonora Tafuro Ambrosetti,2021-06-09 Who decides what in Moscow The answer is not always Vladimir Putin However when explaining Russia's foreign policy the consolidation of Putin's autocratic tendencies and his apparent stability despite many economic and political challenges have contributed at least in the West to an excessive Putin centrism and the relative neglect of other agents of domestic politics As a result many facets of the country's foreign policy decisions are misunderstood or shrouded under a thin veil of vagueness and secrecy This Report attempts to fill this gap exploring the evolving distribution of political and economic power under the surface of Putin's leadership to assess the influence of different lobbies on Russia's foreign policy All of the contributions in the volume underline the complexity of Russia's decision making process beneath the surface of a monolithic and increasingly personalistic government The New Russian Diplomacy Igor S. Ivanov,2004-05-13 A Brookings Institution Press and the Nixon Center publication In this frank and engaging book foreign minister Igor S Ivanov describes the evolution of Russian foreign policy since the collapse of the Soviet Union Drawing on Russia's long diplomatic history Ivanov analyzes the complex process through which a newly democratic Russia has redefined its foreign policy during a volatile transformation over the last decade The book includes the text of Russia's Foreign Policy Concept a Putin administration document that guides the day to day activities of the government Designed to provide the world community with a transparent outline of Russia's foreign policy agenda the Concept attempts to balance Russia's important role in the new world order with internal pressures

to focus on domestic stability The radical transformation of the past decade has required a complete overhaul of the process by which foreign policy is crafted implemented and communicated according to Ivanov The Concept delineates the role of parliament in making foreign policy decisions the interrelationship of the legislative and executive branches and the apportionment of authority among the president government and regional authorities It also stresses the need to renovate Russia's diplomatic service whose tradition of professionally trained diplomats dates back to Peter the Great While acknowledging the impulse to recreate foreign policy from scratch during periods of revolutionary change and radical reform Ivanov stresses the theoretical and practical importance of continuity Although the modern political system of the Russian Federation has no analogue in Russian history Ivanov draws compelling connections between the country's contemporary challenges and the rich legacy of Russian and Soviet diplomacy in the process invoking the political philosophies of historical Russian leaders from ancient Rus to Alexander Gorchakov The New Russian Diplomacy was originally published in Russia where it received very favorable reviews

Palestine in EU and Russian Foreign Policy Malath Alagha, 2016-10-04

The establishment of a Palestinian state has long been a strategic objective of EU and Russian foreign policy in the Middle East However over a decade after the creation of the road map the establishment of an independent Palestinian state has still not been achieved Palestine in EU and Russian Foreign Policy uses the school of constructivism to provide a new understanding of EU and Russian foreign policy It explores the failure of these global actors to speed up the process of establishing a Palestinian state despite this being a strategic objective and top priority of their involvement in the Middle East peace process The book then analyses the role of identity and self other perception in the making of EU and Russian foreign policy towards the Middle East peace process It is argued that Palestinian statehood provides a telling empirical example of how and to what extent the search for global actorness as a matter of international identity informs foreign policy making by global actors The book then proceeds to discuss why the EU and Russia are so eager to be involved in initiating a peace settlement Offering a new understanding of foreign policy making by global players in Middle Eastern politics this book will appeal to students scholars and policymakers working in International Relations and European Russian and Middle Eastern studies
