

The image is a title screen for the game "Dark Fantasy Saga". The title is centered at the top, rendered in a large, white, serif font with a metallic, slightly distressed texture. The word "DARK FANTASY" is on the top line, and "SAGA" is on the line below it. The text is framed by a decorative, symmetrical emblem that resembles a stylized, thorny branch or a gothic crest. The background is a dark, atmospheric scene of a dungeon. On the right side, a large, imposing figure of a knight in dark, ornate armor with gold accents is visible. The knight's helmet is a skull, and their face is a grinning, skeletal mask. The knight is holding a sword, which is partially visible. On the left side, there is a stone archway leading to a brighter area. A wooden treasure chest is placed on the ground near the archway. The overall lighting is dim, with a warm glow emanating from the archway, creating a sense of mystery and danger.

Swarms, Viral Writing, and the Local Carl Whithaus, 2025-04-15 Swarms Viral Writing and the Local examines the social and rhetorical dynamics around emerging writing technologies Carl Whithaus argues that these dynamics work across networked publics as patterns of behavior and ways of interacting through and with multimodal texts This rhetorical analysis of the production and reception of born digital rhetoric shows the ongoing and evolving impacts of online public discourse

that can lead to bad restaurant reviews or the subversion of democracy It is a networked process that gains significance because of the interplay and tensions between the global and the local As these texts are created distributed received and then recreated and shared again in viral ways different messages resonate across media ecologies Whithaus documents how emerging social dynamics shape and are shaped by digital writing reading and distribution technologies

Challenge Based Learning Scott Beattie,2024-12-18 Drawing on Game Based Learning and other innovations this textbook establishes the Challenge Model of learning an interactive format that involves meaningful learner decisions leading to exploration of different outcomes It includes more than 50 different examples of challenges which can be applied to different sites of learning schools and universities through to professional training While the challenges are suitable for use out of the box this textbook also presents design principles and tools for those seeking to create their own challenges It also includes additional in depth discussion of several different projects for more comprehensive integration of challenges into the curriculum and using innovative technologies to enhance learning This textbook is useful for teaching students seeking to understand how interactivity can be integrated into their design toolbox and also serves as a resource for current teachers to develop their teaching approach and seek out new options

The Economics of the Audiovisual Industry: Financing TV, Film and Web Mario La Torre,2016-12-23 This book is open access under a CC BY licence Recent reductions in public funding for audiovisual products have led to dramatic changes in the industry The lack of interaction between the industry and capital markets has made sourcing funds for audiovisual products especially difficult This book explains why the distance between the audiovisual and financial markets exists and considers the perspective of both audiovisual companies and financial intermediaries Providing a thorough

overview of the audiovisual industry in three major categories television cinema and web it analyses the financing behind each The author adapts the traditional assessment methods to include exploitation rights distribution deals and risk determinants he also proposes a pricing model for the audiovisual products demonstrating that prices and values in a industry of prototype goods do not depend solely on cost and revenue The book also includes a methodology for analysing the economics of the sector the different sales agreements between broadcasters and the distribution deals between distributors and independent producers Finally a description of the main financial products for private finance is provided as well as an explanation of how public funds can act as leverage to catalyze private resources through the use of guarantee funds In The Economics of the Audiovisual Industry the author suggests that rather than relying on subsidized public support the audiovisual industry should foster private public partnerships and market dynamics to promote an alternative funding model based on a profitable and long lasting connection between the audiovisual and financial markets The valuation model both for products and firms proposed in this book are at the basis of this new approach
