Myth in the Modern Novel Liisa Steinby, 2023-03-20 Myth in the Modern Novel Imagining the Absolute posits a twofold thesis First although Modernity is regarded as an era dominated by science and rational thought it has in fact not relinquished the hold of myth a more primitive form of thought which is difficult to reconcile with modern rationality Second some of the most important statements as to the reconcilability of myth and Modernity are found in the work of certain prominent novelists This book offers a close examination of the work of eleven writers from the late eighteenth century to the beginning of the twenty first representing German French American Czech and Swedish literature The analyses of individual novels reveal a variety of intriguing views of myth in Modernity and offer an insight into the modernizing transformations myth has undergone when applied in the modern novel The study shows the presence of the subconscious the mythic layer in modern western culture and how this has been dealt with in novelistic literature

Retelling Stories, Framing Culture John Stephens, Robyn McCallum, 2013-01-11 What happens to traditional stories when they are retold in another time and cultural context and for a different audience This first of its kind study discusses Bible stories classical myths heroic legends Arthurian romances Robin Hood lore folk tales oriental tales and other stories derived from European cultures One chapter is devoted to various retellings of classics from Shakespeare to *Wind in the Willows* The authors offer a general theory of what motivates the retelling of stories and how stories express the aspirations of a society An important function of stories is to introduce children to a cultural heritage and to transmit a body of shared allusions and experiences that expresses a society's central values and assumptions However the cultural heritage may be modified through a pervasive tendency of retellings to produce socially conservative outcomes because of ethnocentric androcentric and class based assumptions in the source stories that persist into retellings Therefore some stories such as classical myths are particularly resistant to feminist reinterpretations for example while other types such as folktales are more malleable In examining such possibilities the book evaluates the processes of interpretation apparent in retellings Index included

Exploding the Western Sara L. Spurgeon, 2005-03-01 The frontier and Western expansionism are so

quintessentially a part of American history that the literature of the West and Southwest is in some senses the least regional and the most national literature of all The frontier the place where cultures meet and rewrite themselves upon each other's texts continues to energize writers whose fiction evokes, destroys and rebuilds the myth in ways that attract popular audiences and critics alike Sara L Spurgeon focuses on three writers whose works not only exemplify the kind of engagement with the theme of the frontier that modern authors make but also show the range of cultural voices that are present in Southwestern literature Cormac McCarthy Leslie Marmon Silko and Ana Castillo Her central purposes are to consider how the differing versions of the Western mythic tales are being recast in a globalized world and to examine the ways in which they challenge and accommodate increasingly fluid and even dangerous racial cultural and international borders In Spurgeon's analysis the spaces in which the works of these three writers collide offer some sharply differentiated visions but also create new and unsuspected forms providing the most startling insights Sometimes beautiful sometimes tragic the new myths are the expressions of the larger culture from which they spring both a projection onto a troubled and troubling past and an insistent prophetic vision of a shared future
