Sci Fi Dystopia Media Sensation:

Dystopia on Demand: Technology, Digital Culture, and the Metamodern Quest in Complex Serial Dystopias

Laura Winter, 2024-01-29 Serial storytelling has the advantage of unlocking rather than simplifying the complexities of digital culture. With their worldbuilding potential, TV series open up new artistic horizons, particularly for the dystopian genre. Situated at the nexus of dystopia, complex TV, and a metamodern cultural logic, *Dystopia on Demand: Technology, Digital Culture, and the Metamodern Quest in Complex Serial Dystopias* offers readers novel insights into the dynamics of serial dystopias in the contemporary streaming landscape. Introducing the term complex serial dystopias to describe series that allow audiences to engage with the dystopian premise from multiple angles, the book examines four Anglo-American series including *Black Mirror*, *Mr. Robot*, *Westworld*, and *Kiss Me First*. The in-depth analyses trace the variety of ways in which these series offer critical reflections on the human-technology entanglement in digital culture.

Analysing Darkness and Light: Dystopias and Beyond, 2023-08-28 The book situates itself in the fields of philosophy, political theory, aesthetics, and theories of art, linking its discussions of fictional dystopias to debates on ongoing crises. It asks: Are dystopias a useful tool for imagining ways out of sombre situations, or do they prevent us from engaging in transformative action? The book consists of a thorough introduction and three major sections: 1. Dystopias of Meaninglessness, 2. Techno Euphoria vs. Terror of Technology, and 3. Dystopias Come True. The individual chapters discuss, among other things, liberalism and conservatism, luxury, communism, pandemics, technology-induced anxiety, empty speech, ethics, film, literature, architecture, and music.

Noir Urbanisms Gyan Prakash, 2010-09-27 Dystopic imagery has figured prominently in modern depictions of the urban landscape. The city is often portrayed as a terrifying world of darkness, crisis, and catastrophe. *Noir Urbanisms* traces the history of the modern city through its critical representations in art, cinema, print, journalism, literature, sociology, and architecture. It focuses on visual forms of dystopic representation because the history of the modern city is inseparable from the production and circulation of images and examines their strengths and limits as urban criticism. Contributors explore dystopic images of the modern city in Germany, Mexico, Japan, India, South Africa, China, and the United States. Their topics include Weimar representations of urban dystopia in Fritz Lang's 1927 film *Metropolis*; 1960s modernist architecture in Mexico City; Hollywood film noir of the 1940s and 1950s; the recurring fictional destruction of Tokyo in postwar Japan's sci-fi doom culture; the urban fringe in Bombay cinema; fictional explorations of urban dystopia in postapartheid Johannesburg; and Delhi's out-of-control and media-saturated urbanism in the 1980s and 1990s. What emerges in *Noir Urbanisms* is the unsettling and disorienting alchemy between dark representations and the modern urban experience. In addition to the editor, the contributors are David R. Ambaras, James Donald, Ruben Gallo, Anton Kaes, Ranjani Mazumdar, Jennifer Robinson, Mark Shiel, Ravi Sundaram, William M. Tsutsui, and Li Zhang.

New Perspectives on Dystopian Fiction in Literature and Other Media Saija Isomaa, Jyrki Korpua, Jouni Teittinen, 2020-08-27 This collection of essays examines various forms of dystopian fiction in literature, television, and digital games. It frames the timely trend of dystopian fiction as a thematic field that accommodates several genres, from societal dystopia to apocalyptic narratives and climate fiction, many of them examining the hazards of science and technology to human societies and the ecosystem. These are genres of the Anthropocene par excellence, capturing the dilemmas of the human condition in the current increasingly precarious epoch. The essays offer new interpretations of classical and contemporary works, including the canonised prose of Orwell, Atwood, and Cormac McCarthy, modern pop culture classics like *Battlestar Galactica*, *Fallout*, and *Hunger Games*, and the work of Johanna Sinisalo, a pioneer of Finnish speculative fiction. From Thomas Pynchon to *Watership Down*, the volume's multifaceted approach offers fresh perspectives to those already familiar with existing research, but it is no less accessible for newcomers to the ever-expanding field of dystopian studies.
