Myth Retelling Novel Advanced Strategies:

Between History and Myth Bruce Lincoln, 2024-05-31 All groups tell stories about their beginnings. Such tales are often repeated, finely wrought, and usually much beloved. Among those institutions most in need of an impressive creation account is the state; it is one of the primary ways states attempt to legitimate themselves. But such founding narratives invite revisionist retellings that modify details of the story in ways that undercut, ironize, and even ridicule the state's ideal self-representation. Medieval accounts of how Norway was unified by its first king provide a lively, revealing, and wonderfully entertaining example of this process. Taking the story of how Harald Fairhair unified Norway in the ninth century as its central example, Bruce Lincoln illuminates the way a state's foundation story blurs the distinction between history and myth, and how variant tellings of origin stories provide opportunities for dissidence and subversion as subtle or not so subtle modifications are introduced through details of character, incident, and plot structure. Lincoln reveals a pattern whereby texts written in Iceland were more critical and infinitely more subtle than those produced in Norway, reflecting the fact that the former had a dual audience: not just the Norwegian court but also Icelanders of the twelfth and thirteenth centuries whose ancestors had fled from Harald and founded the only non-monarchic, indeed anti-monarchic state in medieval Europe. *Between History and Myth* will appeal not only to specialists in Scandinavian literature and history but also to anyone interested in memory and narrative.

The CAFE Book Gail Boushey, Allison Behne, 2019-11-05 Teachers are learners too, and for the past ten years Gail Boushey and Allison Behne work with hundreds of teachers and students nationwide, gaining insight into best practices for reading instruction. Using those insights, they developed *The CAFE Book: Expanded Second Edition: Engaging All Students in Daily Literacy Assessment and Instruction* to help teachers apply what their research has shown: that reading instruction is not about the setting, the basal, or the book level. Rather, effective reading instruction is based on what that student needs in that moment. With the release of *The CAFE Book* in 2009, the CAFE system has been implemented in classrooms all over the world. It has changed the way teachers assess, teach, and track student information, and positively impacted the way students learn, practice, and talk about reading. *The CAFE Book: Expanded Second Edition* builds on the same research-based, student-centered foundations but now includes a new process of planning data-driven instruction using the Seven Steps from Assessment to Instruction, The Instruction Protocol, a framework to guide your instruction and planning, Significant resources to help with lesson planning, assessment, goal setting, and parent involvement, A revised CAFE menu, and a checklist of skills for emerging readers. New and improved forms for both the online conferring notebook and a pencil paper notebook to support more effective conferring with students. The addition of CAFE's Essential Elements, a resource to guide your understanding of student-focused instruction. And new and revised Ready Reference Guides that include when to teach the strategy, options, differentiating instruction, and partner strategies. *The CAFE Book: Expanded Second Edition* gives you a variety of tools to structure your literacy block and create an environment where your

students are engaged readers and writers with resources that set them up for success This CAFE system is all you need to support guide and coach your students toward the strategies that will move them forward

Fairy Tales, Myth, and Psychoanalytic Theory Veronica L. Schanoes, 2016-04-15 At the same time that 1970s feminist psychoanalytic theorists like Jean Baker Miller and Nancy Chodorow were challenging earlier models that assumed the masculine psyche as the norm for human development and mental emotional health writers such as Anne Sexton Olga Broumass and Angela Carter were embarked on their own revisionist project to breathe new life into fairy tales and classical myths based on traditional gender roles Similarly in the 1990s second wave feminist clinicians continued the work begun by Chodorow and Miller while writers of fantasy that include Terry Windling Tanith Lee Terry Pratchett and Catherynne M Valente took their inspiration from revisionist authors of the 1970s As Schanoes shows these two decades were both particularly fruitful eras for artists and psychoanalytic theorists concerned with issues related to the development of women's sense of self Putting aside the limitations of both

strains of feminist psychoanalytic theory their influence is undeniable Schanoe's book posits a new model for understanding both feminist psychoanalytic theory and feminist retellings one that emphasizes the interdependence of theory and art and challenges the notion that literary revision involves a masculinist struggle with the writer's artistic forbearers **Children's**
