Manufacturing Facilities Dileep R. Sule, 2008-12-22 Fierce global competition in manufacturing has made proficient facilities planning a mandatory issue in industrial engineering and technology. From plant layout and materials handling to quality function deployment and design considerations, *Manufacturing Facilities Location Planning and Design Third Edition* covers a wide range of topics crucial to manufacturing. *Materials Handling Handbook* Raymond A. Kulweic, 1991-01-16 Sponsored jointly by the American Society of Mechanical Engineers and International Material Management Society, this single source reference is designed to meet today's need for updated technical information on planning, installing, and operating materials handling systems. It not only classifies and describes the standard types of materials handling equipment but also analyzes the engineering specifications and compares the operating capabilities of each type. Over one hundred professionals in various areas of materials handling present efficient methods, procedures, and systems that have significantly reduced both manufacturing and distribution costs. Radiation Protection In The Health Sciences (With Problem Solutions Manual) (2nd Edition) Marilyn E. Noz, Gerald Q. Maguire Jr., 2007-04-12 This book takes a very practical approach to radiation protection and presents very readable information for anyone working in the radiation field or with radioactive material. Offering information rarely found elsewhere, the authors describe in detail both the basic principles and practical implementation, recommendations of radiation protection. Each chapter includes self-assessment review questions and problems with answers provided to help readers master important information. Coupled with a teacher's manual, this book is highly suitable as an undergraduate text for students preparing for careers as X-ray radiation oncology or nuclear medicine technologists. It can also be used as a reference for residents in radiology and radiation oncology, medical personnel, or anyone working with radioactive materials such as those involved in homeland security emergency services or employed at a nuclear power plant.
