Social Media Homicide Confessions Elizabeth Yardley, 2017-09-20. As our interactions with others become ever more mediated by various forms of electronic communication, the relationship between crime and technology is becoming an increasingly important topic for both theoretical and practical studies of criminology. This book analyzes digital communications as they play a part in contemporary homicide, drawing on a range of cases from the United Kingdom and elsewhere in the world, cases where killers confessed on social media, for example, or where their actions were traced using their digital communications. Offering a groundbreaking conceptual framework for people studying this issue, the book will be of great value to criminologists, students, and police officers.

Instagram Guide for Beginners and Dummies Mey Irtz, 2021-05-08. The ways in which we use social media are constantly changing and evolving. While initially a place for users to share photos with their family and friends and post aesthetically pleasing updates for people to be able to see what is happening in their lives, social media has increasingly become more integrated within consumer culture. Social media platforms have become increasingly more geared towards driving engagement and generating ad revenue. Some audiences who are primarily still using social media to connect and be social have been more resistant to this switch, but others love this integration. There are a plethora of ways to bridge this gap and encourage all types of audiences to engage willingly and happily with business accounts. As everyone surely knows, Instagram is one of the most popular photo sharing platforms on social media today. According to Instagram's own data, over 200 million users visit at least one business profile each day. 60% of users say that they have discovered a new product on Instagram, and one third of the stories that receive the most views are posted by businesses. As with the social media market as a whole, there has been a shift from Instagram being a social platform to it being a media platform that places emphasis on unique content creation as well as business and marketing.
