Steve Mccurry: In the Shadow of Mountains Steve McCurry, 2007-11 Steve McCurry's best known and previously unpublished images of Afghanistan and its people **Outlook**, 2008-01-21 *Spectacular Rhetorics* Wendy Hesford, 2011-08-05 Scrutinizes spectacular rhetoric the use of visual images and imagery to construct certain bodies populations and nations as victims and incorporate them into human rights discourses geared toward Westerners

Outlook, 2008-01-21 **Blaming the Victim** Jairo Lugo-Ocando, 2014-12-20 Poverty it seems is a constant in today's news usually the result of famine exclusion or conflict In *Blaming the Victim* Jairo Lugo-Ocando sets out to deconstruct and reconsider the variety of ways in which the global news media misrepresent and decontextualise the causes and consequences of poverty worldwide The result is that the fundamental determinant of poverty inequality is removed from their accounts The book asks many biting questions When and how does poverty become newsworthy How does ideology come into play when determining the ways in which poverty is constructed in newsrooms and how do the resulting narratives frame the issue And why do so many journalists and news editors tend to obscure the structural causes of poverty In analysing the processes of news production and presentation around the world Lugo-Ocando reveals that the news makers' agendas are often as problematic as the geopolitics they seek to represent This groundbreaking study reframes the ways in which we can think and write about the enduring global injustice of poverty National Geographic, 2008-02 Outlook, 2008 **I Heart Design** Steven Heller, 2011-03-01 *I Heart Design* is a collection of favorite designs as selected by 80 prominent graphic designers typographers teachers scholars writers and design impresarios Designers have preferences like modern over postmodern serif over sans serif decorative over minimal but designers could not be engaged in design practice if they did not love design The reasons for such a charged emotion varies from individual to individual but there are certain commonalities regarding form function outcome and more Design triggers something in all of us that may be solely aesthetic or decidedly content driven but in the final analysis we are drawn to it through the heart Designs featured include the iconic CBS eye the stark Kodak identity the Coca-Cola bottle and of course The Rolling Stones' *Sticky Fingers* album cover

Photography in 100 Words David Clark, 2009 The question What is photography is not an easy one to answer Many thousands of words have been written in an effort to do so in academic journals and in books by cultural commentators such as Susan Sontag and Roland Barthes If we acknowledge that it is impossible to provide a definitive answer can we at least distil the meaning of photography into somewhat fewer words and get to the very essence of the medium without diminishing its importance as an art form This book aims to do just that David Clark has selected 50 iconic images by some of the world's greatest photographers and asked them to explain how the pictures were made and their creative approach From these interviews he has chosen 100 words that encapsulate their philosophy and which are picked out in bold in the text The highlighted words work on two levels As well as giving insights into iconic images from the photographers who took them

they build over the course of the book into a unique creative lexicon of the photographic medium one which crystallises its many aims and functions perspectives and meanings Thought provoking insightful and inspirational Photography in 100 Words will appeal to all photographers and anyone who seeks a better understanding of the medium David Clark is a photography journalist and author He was the senior features writer on Amateur Photographer magazine for nine years during which time he met and interviewed many of the world s great photographers
