The Goddess and the Bull Michael Balter, 2016-06-16 Veteran science writer Michael Balter skillfully weaves together many threads in this fascinating book about one of archaeology's most legendary sites atalhyk. First excavated forty years ago, the site is justly revered by prehistorians, art historians, and New Age goddess worshippers alike for its spectacular finds dating almost 10,000 years ago. Archaeological maverick Ian Hodder, leader of the recent re-excavation at this Turkish mound, designated Balter as the project's biographer. The result is a skillful telling of many stories about both past and present of the inhabitants of Neolithic atalhyk and the development of human creativity and ingenuity as revealed in the recent excavation of James Mellaart, the original excavator whose troubles off the mound eventually overshadowed his incisive work at the site of Hodder and his intense brilliant crew who marveled and squabbled over the meaning of finds in dusty trenches while attempting to reinterpret Mellaart's work and of the recent history of the theory and methods of archaeology itself. Part story of the human past, part soap opera of modern scholarly life, part textbook on the practice of modern archaeology, this book should appeal to general readers and archaeological students alike.

The Performance Studies Reader Henry Bial, 2004 The Performance Studies Reader is a lively and much needed anthology of critical writings on the burgeoning discipline of performance studies. It provides an overview of the full range of performance theory for undergraduates at all levels and beginning graduate students in performance studies, theatre, performing arts, and cultural studies. The collection is designed as a companion to Richard Schechner's popular Performance Studies: An Introduction (Routledge, 2002) but is also ideal as a stand-alone text. Henry Bial collects together key critical pieces from the field, referred to as suggested readings in Performance Studies: An Introduction. He also broadens the discussion with additional selections. The structure and themes of the Reader closely follow those of Schechner's companion textbook. The articles in each section focus particularly on three primary areas in performance studies: theatre, anthropology, and sociology/cultural studies.

Impossible Missions? Nina Berman, 2004-01-01 This study of the German presence in Africa in the modern period exposes forms of cultural domination that derive from a philosophy of progress and good intentions. The humanitarian belief in development, however, can ultimately lead to the same structural imbalances that an overtly racist model of intervention produces. Berman examines five case studies involving German individuals and their respective missions in Africa: Max Eyth in Egypt, Albert Schweitzer in Gabon, Ernst Udet in East Africa, Bodo Kirchhoff in Somalia, and modern-day tourists in Kenya. These engineers, doctors, pilots, soldiers, and tourists believed that their presence and actions would benefit the respective countries and their inhabitants. Nevertheless, their interventions created profound problems for Africans. Nina Berman describes the structures of domination that date back to colonialism but did not disappear with decolonization and are in fact integral to today's global economy. She also critiques the avoidance of African material reality in most of the analyses of European images of Africa, which has led to a perpetuation of the old model of Africanism. By highlighting patterns of domination that did not disappear with decolonization, Impossible Missions disputes previous

assumptions about why global inequality has not only persisted but increased

Images of Empire M.W. Daly, Jane Hogan, 2005-11-01 This book highlights the richness of photographic sources for the study of one European colonial entity in Africa the Anglo Egyptian Sudan Photographs from the extraordinary Sudan Archive of the University of Durham illustrate important aspects of the colonial experience and provide both important information in their own right and essential context for the study of the period An introductory essay surveys the era the documentary sources for its study and the nature of the photographic record The book will serve as both a model and an inspiration for the discovery collection conservation and use of photographs as sources for the study of other outposts of the British Empire

Anthropological Filmmaking J.R Rollwagen, 2014-06-03 First Published in 1988 Visual Anthropology is a book series devoted to the illumination of the human condition through a systematic examination of all that is made to be seen It is our intention to demonstrate the value of an anthropological approach to the study of the visual and pictorial world The anthropological filmmaker just like the ethnographer must be content to present something about a dynamic process at a particular moment in time regardless of the fact that all of the variables are constantly in flux The purpose of this work is to make available a collection of articles by individuals who are both anthropologists and filmmakers
