The Black Child Savers Racial Democracy And Juvenile Justice:

The Black Child-Savers Geoff K. Ward, 2012-06-27 During the Progressive Era a rehabilitative agenda took hold of American juvenile justice materializing as a citizen and state building project and mirroring the unequal racial politics of American democracy itself Alongside this liberal manufactory of citizens a parallel structure was enacted a Jim Crow juvenile justice system that endured across the nation for most of the twentieth century In The Black Child Savers the first study of the rise and fall of Jim Crow juvenile justice Geoff Ward examines the origins and organization of this separate and unequal juvenile justice system Ward explores how generations of black child savers mobilized to challenge the threat to black youth and community interests and how this struggle grew aligned with a wider civil rights movement eventually forcing the formal integration of American juvenile justice Ward s book reveals nearly a century of struggle to build a more democratic model of juvenile justice an effort that succeeded in part but ultimately failed to deliver black youth and community to liberal rehabilitative ideals At once an inspiring story about the shifting boundaries of race citizenship and democracy in America and a crucial look at the nature of racial inequality The Black Child Savers is a stirring account of the stakes and meaning of social justice

A New Kind of Youth Jon N. Hale, 2022-11-29 The story of activist youth in America is usually framed around the Vietnam War the counterculture and college campuses focusing primarily on college students in the 1960s and 1970s But a remarkably effective tradition of Black high school student activism in the civil rights era has gone understudied In 1951 students at R R Moton High School in rural Virginia led a student walkout and contacted the law firm of Hill Martin and Robinson in Richmond Virginia to file one of the five pivotal court cases that comprised the *Brown v Board of Education* decision In 1960 twenty four Burke High School students in Charleston South Carolina organized the first direct action nonviolent protest in the city at the downtown S H Kress department store Months later in the small town of

McComb Mississippi an entire high school walked out in protest of the conviction of a student who sat in on a local Woolworth lunch counter in 1961 guiding the agenda for the historic Freedom Summer campaign of 1964 A New Kind of Youth brings high school activism into greater focus illustrating how Black youth supported liberatory social and political movements and inspired their elders across the South *The Oxford Handbook of Juvenile Crime and Juvenile Justice* Barry C. Feld, Donna M. Bishop, 2012-01-12 State of the art critical reviews of recent scholarship on the causes of juvenile delinquency juvenile justice system responses and public policies to prevent and reduce youth crime are brought together in a single volume authored by leading scholars and researchers in neuropsychology developmental and social psychology sociology history criminology criminal justice and law **Child Slavery before and after Emancipation** Anna Mae Duane, 2017-02-17 An innovative interdisciplinary anthology arguing that we are unable to fully understand slavery then and now without attending to children's roles in slavery's machinations *DARE to Say No* Max Felker-Kantor, 2024-04-02 With its signature DARE to keep kids off drugs slogan and iconic t-shirts DARE Drug Abuse Resistance Education was the most popular drug education program of the 1980s and 1990s But behind the cultural phenomenon is the story of how DARE and other antidrug education programs brought the War on Drugs into schools and ensured that the velvet glove of antidrug education would be backed by the iron fist of rigorous policing and harsh sentencing Max Felker-Kantor has assembled the first history of DARE which began in Los Angeles in 1983 as a joint venture between the police department and the unified school district By the mid 90s it was taught in 75 percent of school districts across the United States DARE received near universal praise from parents educators police officers and politicians and left an indelible stamp on many millennial memories But the program had more nefarious ends and Felker-Kantor complicates simplistic narratives of the War on Drugs He shows how policing entered US schools and framed drug use as the result of personal responsibility moral failure and poor behavior deserving of punishment rather than something deeply rooted in state retrenchment the abandonment of social service provisions and structures of social and economic inequality Perspectives on Childhood Connie M. Dettlaff,2023-07-28 In Confronting the Racist Legacy of the American Child Welfare System Alan J Dettlaff presents a call to abolish the American child welfare system due to the harm and destruction it causes Black families Dettlaff provides evidence of the vast harms that result from family separations and placement in foster care to make a case that the child welfare system is beyond reform Rather the only solution to ending this harm is complete abolition of the child welfare system and a fundamental reimagining of the way society cares for children and families **The Routledge Handbook of Criminal Justice Ethics** Jonathan Jacobs,Jonathan Jackson,2016-07-01 The enormous financial cost of criminal justice has motivated increased scrutiny and recognition of the need for constructive change but what of the ethical costs of current practices and policies Moreover if we seriously value the principles of liberal democracy then there is no question that the ethics of criminal justice are everybody s business concerns for the entire society The Routledge Handbook of Criminal Justice Ethics brings together international scholars to explore the most significant ethical issues throughout their many areas of expertise anchoring their discussions in the empirical realities of the issues faced rather than applying moral theory at a distance Contributions from philosophers legal scholars criminologists and psychologists bring a fresh and interdisciplinary approach to the field The Handbook is divided into three parts Part I addresses the core issues concerning criminal sanction the moral and political aspects of the justification of punishment and the relationship between law and morality Part II examines criminalization and criminal liability and the assumptions and attitudes shaping those aspects of contemporary criminal justice Part III evaluates current policies and practices of criminal procedure exploring the roles of police prosecutors judges and juries and suggesting directions for revising how criminal justice is achieved Throughout scholars seek pathways for change and suggest new solutions to address the central concerns of criminal justice ethics This book is an ideal resource for upper undergraduate and postgraduate students taking courses in criminal justice ethics criminology and criminal justice theory and also for students of philosophy interested in punishment law and society and law and ethics The End of Family Court Jane M. Spinak,2023-08-01 Explores the failures of family court and calls for immediate and permanent change At the turn of the twentieth century American social reformers created the first juvenile court They imagined a therapeutic court where informality specially trained public servants and a kindly all knowing judge would assist children and families But the dream of a benevolent means of judicial problem solving was never realized A century later children and families continue to be failed by this deeply flawed court The End of Family Court rejects the foundational premise that family court can do good when intervening in family life and challenges its endless reinvention to

survive Jane M Spinak illustrates how the procedures and policies of modern family court are deeply entwined in a heritage of racism a profound disdain for poverty and assimilationist norms intent on fixing children and families who are different And the court s interventionist goals remain steeped in an approach to equity and well being that demands individual rather than collective responsibility for the security and welfare of families Spinak proposes concrete steps toward abolishing the court shifting most family supports out of the court s sphere vastly reducing the types and number of matters that need court intervention and ensuring that any case that requires legal adjudication has the due process protections of a court of law She calls for strategies that center trusting and respecting the abilities of communities to create and sustain meaningful solutions for families An abolitionist approach in turn celebrates a radical imagination that embraces and supports all families in a fair and equal economic and political democracy

Racial Reconciliation and the Healing of a Nation Austin Sarat, Charles J. Ogletree, 2017-10-24 The work at hand for bridging the racial divide in the United States From Baltimore and Ferguson to Flint and Charleston the dream of a post racial era in America has run up against the continuing reality of racial antagonism Current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty and ambivalence about the place and meaning of race and especially the black white divide in American culture They also suggest that the work of racial reconciliation remains incomplete *Racial Reconciliation and the Healing of a Nation* seeks to assess where we are in that work examining sources of continuing racial antagonism among blacks and whites It also highlights strategies that promise to promote racial reconciliation in the future Rather than revisit arguments about the importance of integration assimilation and reparations the contributors explore previously unconsidered perspectives on reconciliation between blacks and whites Chapters connect identity politics the rhetoric of race and difference the work of institutions and actors in those institutions and structural inequities in the lives of blacks and whites to our thinking about tolerance and respect Going beyond an assessment of the capacity of law to facilitate racial reconciliation *Racial Reconciliation and the Healing of a Nation* challenges readers to examine social political cultural and psychological issues that fuel racial antagonism as well as the factors that might facilitate racial reconciliation

Gotham's War within a War Emily Brooks, 2023-10-18 A surprising history unfolded in New Deal and World War II era New York City under Mayor Fiorello La Guardia Throughout the late nineteenth and early twentieth centuries members of the NYPD had worked to enforce partisan political power rather than focus on crime That changed when La Guardia took office in 1934 and

shifted the city's priorities toward liberal reform. La Guardia's approach to low level policing anticipated later trends in law enforcement including broken windows theory and stop and frisk policy. Police officers worked to preserve urban order by controlling vice including juvenile delinquency, prostitution, gambling, and the disorderly establishments that officials believed housed these activities. This mode of policing was central to La Guardia's influential vision of urban governance but it was met with resistance from the Black New Yorkers, youth, and working class women it primarily targeted. The mobilization for World War II introduced new opportunities for the NYPD to intensify policing and criminalize these groups with federal support. In the 1930s these communities were framed as perils to urban order; during the militarized war years they became a supposed threat to national security itself. Emily M. Brooks recasts the evolution of urban policing by revealing that the rise of law and order liberalism was inseparable from the surveillance, militarism, and nationalism of war.
