Han, C. Clark Triplett, Ashley G. Anthony, 2018-08-30 Dystopian fiction captivates us by depicting future worlds at once eerily similar and shockingly foreign to our own This collection of new essays presents some of the most recent scholarship on a genre whose popularity has surged dramatically since the 1990s Contributors explore such novels as *The Lord of the Flies* *The Heart Goes Last* *The Giver* and *The Strain* Trilogy as social critique revealing how they appeal to the same impulse as utopian fiction the desire for an idealized yet illusory society in which evil is purged and justice prevails

Medical Entanglements Kristina Gupta, 2019-10-25 *Medical Entanglements* uses intersectional feminist queer and crip theory to move beyond for or against approaches to medical intervention Using a series of case studies sex confirmation surgery pharmaceutical treatments for sexual dissatisfaction and weight loss interventions the book argues that because of systemic inequality most mainstream medical interventions will simultaneously reinforce social inequality and alleviate some individual suffering The book demonstrates that there is no way to think ourselves out of this conundrum as the contradictions are a product of unjust systems Thus Gupta argues that feminist activists and theorists should allow individuals to choose whether to use a particular intervention while directing their social justice efforts at dismantling systems of oppression and at ensuring that all people regardless of race gender sexuality class or ability have access to the basic resources required to flourish **The New True Crime** Diana Rickard, 2023-09-05 How serialized crime shows became an American obsession TV shows and podcasts like *Making a Murderer* *Serial* and *Atlanta Monster* have taken the cultural zeitgeist by storm and contributed to the release of wrongly imprisoned people such as Adnan Syed The popularity of these long form true crime docuseries has sparked greater attention to issues of inequality power social class and structural racism More and more the American public is asking Who is and is not deserving of punishment and who is and is not protected by the law In *The New True Crime* Diana Rickard argues that these new true crime series deserve our attention for what they reveal about our societal understanding of crime and punishment and for the new light they shine on the inequalities of the criminal justice system Questioning the finality of verdicts framing facts as in the eye of the beholder these new series unmoor our faith in what is knowable even as Rickard critically notes they often blur the lines between fact and fiction With a focus on some of the most popular true crime podcasts and streaming series of the last decade Rickard

provides an in depth analysis of the ways in which this new media which allows for binge listening or watching makes crime into a public spectacle and conveys ideological messages about punishment to its audience Entertainment values have always been entwined with crime news reporting Newsworthy stories Rickard reminds us need to involve sex violence or a famous person and contain events that can be framed in terms of individualism and conservative ideologies about crime Even as these old tropes of innocent victims and deviant bad guys still dominate these docuseries Rickard also unpacks how the new true crime has been influenced by the innocence movement a diverse group of organizers and activists be they journalists lawyers formerly incarcerated people or family members who now have a place in mainstream consciousness as DNA evidence exonerates the wrongly convicted The New True Crime questions the knowability of truth and probes our anxieties about the real nature of true crime media For fans of true crime shows and anyone concerned about justice in America this book will prove to be essential reading

The Empire of Effects Julie A.

Turnock, 2022-06-14 2024 Finalist Marshall McLuhan Outstanding Book Award Media Ecology Association How one company created the dominant aesthetic of digital realism Just about every major film now comes to us with an assist from digital effects The results are obvious in superhero fantasies yet dramas like Roma also rely on computer generated imagery to enhance the verisimilitude of scenes But the realism of digital effects is not actually true to life It is a realism invented by Hollywood by one company specifically Industrial Light Magic The Empire of Effects shows how the effects company known for the puppets and space battles of the original Star Wars went on to develop the dominant aesthetic of digital realism Julie A Turnock finds that ILM borrowed its technique from the New Hollywood of the 1970s incorporating lens flares wobbly camerawork haphazard framing and other cinematography that called attention to the person behind the camera In the context of digital imagery however these aesthetic strategies had the opposite effect heightening the sense of realism by calling on tropes suggesting the authenticity to which viewers were accustomed ILM's style on display in the most successful films of the 1980s and beyond was so convincing that other studios were forced to follow suit and today ILM is a victim of its own success having fostered a cinematic monoculture in which it is but one player among many
