The Ethnography of Reading at Thirty Matthew Rosen, 2023-11-23 This edited volume examines what the classic text *The Ethnography of Reading* (Boyarin ed. 1993) and the diverse ethnographies of reading it helped inspire can offer contemporary scholars interested in understanding the place of reading in social life. *The Ethnography of Reading at Thirty* brings together new research and critical reflections from an international and interdisciplinary group of scholars who have kept their ears tuned to the voices in and around the texts they encountered and constructed in the process of bringing the ethnography of reading into the twenty-first century. Rather than operating from universalist assumptions about how people interact with and make meaning from written texts, each of the present contributors draws in one way or another on the theoretical, methodological, and creative legacies of *The Ethnography of Reading*. Under the broad umbrella of ethnographic reader studies, they collectively explore new relations between texts, social imagination, and social action.
