Technology and Values - Essential Readings with Philosophy of Technology SET Craig Hanks,2010-12-01 Technology and Values Craig Hanks,2009-05-04 This anthology features essays and book excerpts on technology and values written by preeminent figures in the field from the early 20th century to the present It offers an in depth range of readings on important applied issues in technology as well Useful in addressing questions on philosophy sociology and theory of technology Includes wide ranging coverage on metaphysics ethics and politics as well as issues relating to gender biotechnology everyday artifacts and architecture A good supplemental text for courses on moral or political problems in which contemporary technology is a unit of focus An accessible and thought provoking book for beginning and advanced undergraduates yet also a helpful resource for graduate students and academics *New Perspectives on Technology, Values, and Ethics* Wenceslao

J. Gonzalez,2015-10-08 This book focuses on a key issue today the role of values in technology with special emphasis on ethical values This topic involves the analysis of internal values in technology as they affect objectives processes and outcomes and the study of external values in technology social cultural economic ecological etc These values internal and external are crucial to the decision making of engineers In addition they have increasing relevance for citizens concerned with the present and future state of technology which gives society a leading position in technological issues The book follows three main lines of research 1 new perspectives on technology values and ethics 2 rationality and responsibility in technology and 3 technology and risks This volume analyzes the two main sides involved here the theoretical basis for the role of values in technology and a practical discussion on how to implement them in our society Thus the book is of interest for philosophers engineers academics of different fields and policy makers The style used lends itself to broad audience

Jacques Ellul and the Technological Society in the 21st Century Helena M. Jerónimo, José Luís Garcia, Carl Mitcham,2013-07-08 This volume rethinks the work of Jacques Ellul 1912 1994 on the centenary of his birth by presenting an overview of the current debates based on Ellul s insights As one of the most significant twentieth century thinkers about technology Ellul was among the first thinkers to realize the importance of topics such as globalization terrorism communication technologies and ecology and study them from a technological perspective The book is divided into three sections The first discusses Ellul s diagnosis of modern society and addresses the reception of his work on the technological society the notion of efficiency the process of symbolization de symbolization and ecology The second analyzes communicational and cultural problems as well as threats and trends in early twenty first century societies Many of the issues Ellul saw as crucial such as energy propaganda applied life sciences and communication continue to be so In fact they have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and

philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul s work as a whole but above all it opens up a space for examining religious life in the technological society The Oxford Handbook of Spectral Music Amy Bauer,Liam Cagney,William Mason,2025 The handbook presents a cross section of current scholarly research on the spectral music movement and its legacy from its founding in the mid 1970 s to the present It will appeal to scholars composers and students desiring to become better acquainted with the broad influence of spectral music

Medicine and Society, New Perspectives in Continental Philosophy Darian Meacham,2015-05-22 This volume addresses some of the most prominent questions in contemporary bioethics and philosophy of medicine liberal eugenics enhancement the normal and the pathological the classification of mental illness the relation between genetics disease and the political sphere the experience of illness and disability and the sense of the subject of bioethical inquiry itself All of these issues are addressed from a continental perspective drawing on a rich tradition of inquiry into these questions in the fields of phenomenology philosophical hermeneutics French epistemology critical theory and post structuralism At the same time the contributions engage with the Anglo American debate resulting in a fruitful and constructive conversation that not only shows the depth and breadth of continental perspectives in bioethics and medicine but also opens new avenues of discussion and exploration For decades European philosophers have offered important insights into the relation between the practices of medicine the concept of illness and society more broadly understood These interventions have generally striven to be both historically nuanced and accessible to non experts From Georges Canguilhem s seminal *The Normal and the Pathological* Michel Foucault s lectures on madness sexuality and biopolitics Hans Jonas s deeply thoughtful essays on the right to die life extension and ethics in a technological age Hans Georg Gadamer s lectures on *The Enigma of Health* and more recently J rgen Habermas s carefully nuanced interventions on the question of liberal eugenics these thinkers have sought to engage the wider public as much as their fellow philosophers on questions of paramount importance to current bioethical and social political debate The essays contained here continue this tradition of engagement and accessibility In the best practices of European philosophy the contributions in this volume aim to engage with and stimulate a broad spectrum of readers not just experts In doing so the volume offers a showcase of the richness and rigor of continental perspectives on medicine and society

Performing Identity Barry King,2023-12-15
This book examines how the persistent and deepening casualization and precarity of acting work coupled with market pressures has affected the ways in which actors are trained in the US and UK It reviews the existing state of training looking at various theories of what the actor does debates about casting and the impact of reality television and social media In the increasing effort to find ways to overcome the precarious labour market for actors and other performers the traditional emphasis on theatrical character has been replaced by the celebration of the persona a public image of the performer as a personal brand As a result a physiocratic elite that literally incorporates the collective labour of cultural workers into the star or celebrity body has formed This book explores how the star or celebrity s appearance and comportment are positioned as the rule of nature formed and abiding outside capitalism as a mode of production This book will be of interest to those studying theatre studies and performance contemporary stardom and celebrity and the impact of technology on the formation of identity

The Unnameable Monster in Literature and Film Maria Beville,2013-10-30 This book visits the Thing in its various manifestations as an unnameable monster in literature and film reinforcing the idea that the very essence of the monster is its excess and its indeterminacy Tied primarily to the artistic modes of the gothic science fiction and horror the unnameable monster retains a persistent presence in literary forms as a reminder of the sublime object that exceeds our worst fears Beville examines various representations of this elusive monster and argues that we must look at the monster rather than through it at ourselves As such this book responds to the obsessive manner in which the monsters of literature and culture are managed in processes of classification and in claims that they serve a social function by embodying all that is horrible in the human imagination The book primarily considers literature from the Romantic period to the present and film that leans toward postmodernism Incorporating disciplines such as cultural theory film theory literary criticism and continental philosophy it focuses on that most difficult but interesting quality of the monster its unnameability in order to transform and accelerate current readings of not only the monsters of literature and film but also those that are the focus of contemporary theoretical discussion
