

the metrics that matter

performing videos

will show you the details for that specific video: its total views, its completion rate (how many people watched your video) to how you compare to other creators, how many new followers you gained from the video, and where your views came from (the "for you" page, for example.)

When it comes to video analytics, look at your best-performing videos and your worst-performing videos. What's the difference? Do your viewers tend to drop out of videos all the way through, but not at the beginning? Or maybe your viewers do prefer short videos because it's so valuable and you've seen that trend until the end.

Pay attention to completion rate, shares, and comments. These are the metrics that matter.
