Entrepreneurship Roadmap Readers Choice:

The Era of Choice Edward C. Rosenthal Ph.D., 2006-09-22 How today's cornucopia of choices has transformed our lives and our culture from the foundations of scientific theory to the anxiety of everyday decisions Today most of us are awash with choices The cornucopia of material goods available to those of us in the developed world can turn each of us into a kid in a candy store but our delight at picking the prize is undercut by our regret at lost opportunities And what's the criterion for choosing anything material spiritual the path taken or not taken when we have lost our faith in everything In *The Era of Choice* Edward Rosenthal argues that choice and having to make choices has become the most important influence in both our personal lives and our cultural expression Choice he claims has transformed how we live how we think and who we are This transformation began in the nineteenth century catalyzed by the growing prosperity of the Industrial Age and a diminishing faith in moral and scientific absolutes The multiplicity of choices forces us to form oppositions this says Rosenthal has spawned a keen interest in dualism dilemmas contradictions and paradoxes In response we have developed mechanisms to hedge compromise and to synthesize Rosenthal looks at the scientific and philosophical theories and cultural movements that choice has influenced from physics for example Niels Bohr's theory that light is both particle and wave to postmodernism from Disney trailers to multiculturalism He also reveals the effect of choice on the personal level where we grapple with decisions that range from which wine to have with dinner to whether to marry or divorce as we hurtle through lives of instant gratification accelerated consumption trend change and speed But we have discovered writes Rosenthal that sometimes we can have our cake and eat it too *Igniting the Entrepreneurial Mindset* Barrett
