Technical Analysis And Financial Asset Forecasting From Simple Tools To Advanced Techniques:

Technical Analysis And Financial Asset Forecasting: From Simple Tools To Advanced Techniques Raymond Hon-fu Chan, Alan Wing-keung Wong, Spike Tsz-ho Lee, 2014-08-19 Technical analysis is defined as the tracking and prediction of asset price movements using charts and graphs in combination with various mathematical and statistical methods. More precisely, it is the quantitative criteria used in predicting the relative strength of buying and selling forces within a market to determine what to buy, what to sell, and when to execute trades. This book introduces simple technical analysis tools like moving averages and Bollinger bands and also advanced techniques such as wavelets and empirical mode decomposition. It first discusses some traditional tools in technical analysis such as trend line, trend channel, Gann's Theory, moving averages, and Bollinger bands. It then introduces a recent indicator developed for the stock market and two recent techniques used in the technical analysis field: wavelets and the empirical mode decomposition in financial time series. The book also discusses the theory to test the performance of the indicators and introduces the MATLAB Financial Toolbox, some of the functions and codes of which are used in our numerical experiments. *Essentials of Technical Analysis* Dr. Alex Tang, 2017-03-14 This book presents a roundup of tools in technical analysis. The major targeted readers are university undergraduates and investors who want to have a basic understanding of the nuts and bolts related to technical analysis. The book first discusses some basic and traditional tools and then moves on to study the more advanced mathematical techniques like neural network and program trading. **The Economist**, 1999 Smart Objects and Technologies for Social Good Hiep Xuan Huynh, Congduc Pham, Nghia Duong-Trung, 2025-09-10 The two volume set LNICST 648 and 649 constitutes the refereed post-conference proceedings of the 10th EAI International Conference on Smart Objects and Technologies for Social Goods GOODTECHS 2024 held in Can Tho, Vietnam during December 19-20, 2024.
