Managing the Paralympics Simon Darcy, Stephen Frawley, Daryl Adair, 2017-02-08 This book critically examines the planning management and operations of the world's premier event for Para sport athletes. Noting a lack of research into how these games are planned and managed, the authors of this contributed volume discuss how the Paralympics are essentially different to the Olympics and what this means for their management. *Managing the Paralympics* explores how the organizers and connected stakeholders effectively organize and deliver the Paralympics, taking into account what has been learned from previous events. Including emergent models of best practice from event management, project management and sport management literature, the book gives an insight into the planning of one of the world's biggest sporting events that encompasses ten impairment types and multiple sport classes within sports.

Accessibility in Sport Management Simon Darcy, Paul J. Kitchin, Tracey J. Dickson, Juan Luis Paramio-Salcines, 2025-04-17 This book introduces the fundamental principles of accessible and inclusive sport venue management with a focus on people with disability. It offers a social ecological analysis of how governments, businesses, the disability social movement, sports organisations and their stakeholders can and should make sport more accessible and inclusive. Using a critical disability studies perspective, this book highlights recent global human rights initiatives, challenges and ongoing resistance to the drive for accessibility in sport venue management. Drawing on the latest research, it takes a step-by-step look at the sporting experience, including pre-experience, planning, travel to and from an event, the built environment, the experience itself and online participation, and considers how each phase might be made more accessible and inclusive and how commercial and social justice considerations intersect. Addressing the needs of participants, consumers, employees, volunteers and organisations, this book is essential reading for any student, researcher, practitioner or policymaker with an interest in sport management, disability sport, event management, corporate social responsibility, disability studies or human rights.
