The Future Of The Disabled In Liberal An Ethical Analysis:

FUTURE OF THE DISABLED IN LIBERAL SOCIETY Hans S. Reinders, 2000 Questions developments in human genetic research from the perspective of persons with mental disabilities and their families Hans S Reinders argues that when we use terms such as disease and defect to describe conditions that genetic engineering might well eliminate we may also be assuming that disabled lives are deplorable and horrific Reinders points out that the possibility of preventing disabled lives is at odds with our commitment to the full inclusion of disabled citizens in society The tension between these different perspectives is of concern to all of us as genetic testing procedures proliferate Reinders warns that preventative uses of human genetics might even become a threat to the social security and welfare benefits that help support disabled persons and their families Reinders also argues that this conflict cannot be resolved or controlled on the level of public morality Because a liberal society makes a commitment to individual freedom and choice its members can consider the diagnostic and therapeutic uses of human genetics as options available to individual citizens A liberal society will defend reproductive freedom as a matter of principle Citizens may select their offspring in accord with their own personal values Reinders concludes that the future of the mentally disabled in liberal society will depend on the strength of our moral convictions about the value of human life rather than on the protective force of liberal morality

The Future of the Disabled in Liberal Society Hans S. Reinders, 2000 The Future of the Disabled in Liberal Society questions developments in human genetic research from the perspective of persons with mental disabilities and their families Hans S Reinders argues that when we use terms such as disease and defect to describe conditions that genetic engineering might well eliminate we may also be assuming that disabled lives are deplorable and horrific Reinders points out that the possibility of preventing disabled lives is at odds with our commitment to the full inclusion of disabled citizens in society The tension between these different perspectives is of concern to all of us as genetic testing procedures proliferate Reinders warns that preventative uses of human genetics might even become a threat to the social security and welfare benefits that help support disabled persons and their families Reinders also argues that this conflict cannot be resolved or controlled on the level of public morality Because a liberal society makes a commitment to individual freedom and choice its members can consider the diagnostic and therapeutic uses of human genetics as options available to individual citizens A liberal society will defend reproductive freedom as a matter of principle Citizens may select their offspring in accord with their own personal values Reinders concludes that the future of the mentally disabled in liberal society will depend on the strength of our moral convictions about the value of human life rather than on the protective force of liberal morality One of the most important aspects of this book is Reinder s attention to parents who have come to see the task of raising a disabled child as an enriching experience These are people who change their conceptions of success and control and therefore their conceptions of themselves They come to value their disabled children for what they have to give Even though disabled children and disabled adults present

parents and society with real challenges the rewards are just as real This powerful critique of contemporary bioethics is sure to become required reading for those interested in human development special education ethics philosophy and theology

Issues in Human Rights Protection of Intellectually Disabled Persons Andreas Dimopoulos,2016-05-06 This book develops a legal argument as to how persons with intellectual disability can flourish in a liberal setting through the exercise of human rights even though they are perceived as non autonomous Using Ronald Dworkin s theory of liberal equality it argues that ethical individualism can be modified to accommodate persons with intellectual disability as equals in liberal theory Current legal practices the case law of the ECtHR on disability the provisions of the UNCRPD and a comparative analysis of English and German law are discussed as well as suggestions for positive measures for persons with intellectual disability The book will interest academics human rights activists and legal practitioners in the field of disability rights

Bickenbach,2012-01-03 Explores ethical legal and policy issues of people with disabilities and examines topics central to the lives of individuals with disabilities and their families Intellectual Disability in a Post-Neoliberal World Jennifer Clegg,Richard Lansdall-Welfare,2024-05-17 This book suggests and promotes new paradigms for intellectual disability Challenging the predominant neoliberal agenda it combines extensive clinical experience conceptual analysis and recent research The authors explore the way that promotion of autonomy and choice overlooks the fundamentally relational needs of people with intellectual disabilities by examining four significant repeating themes What neoliberal policies are and how they suffocate innovation the recurring scandals that characterise ID services in all cultures the counter intuitive belief that behavioural interventions can somehow address emotional distress and fundamental tensions in the relationship between parents and services Each chapter proposes alternative and hopeful ways to address the 40% of people with intellectual disabilities whose distress generates challenges for parents and staff Written primarily for intellectual disability researchers professionals service managers and policy makers this book constitutes a useful reading also for scholars in psychology psychiatry and nursing as well as specialist historians geographers sociologists and social anthropologists engaged with intellectual disabilities **In God's Image** Peter A. Comensoli,2018-04-24 In God s Image Recognizing the Profoundly Impaired as Persons is a bold Catholic argument in defense of the profoundly impaired While a range of theological voices can now be heard speaking up on behalf of those who live their lives at the extremes of the human

condition few voices have been explicitly Catholic Comensoli draws on the irreplaceable contribution of St Thomas Aquinas to forge an engagement with one of the leading thinkers in the theology of the disabled Professor Hans Reinders While recognizing the crucial contribution that Reinders has made Comensoli situates our perception of the cognitively impaired within the horizon of God's own image refusing a reduction of the substantialist position the Catholic tradition has always valued This is linked to the fresh and countercultural community life pioneered by Jean Vanier founder of the L'Arche communities For Comensoli the profoundly impaired are persons whose personhood cannot be recognized outside of the condition of their impairment and through which God's Image is perceived in all its paradoxical implications Is Human Nature Obsolete? Harold W. Baillie, Timothy Casey, 2005 An interdisciplinary exploration of whether modern genetics and bioengineering are leading us to a posthuman future *Disability in the Christian Tradition* Brian Brock, John Swinton, 2012-08-06 For two millennia Christians have thought about what human impairment is and how faith communities and society should respond to people with perceived impairments But never has one volume collected the most significant Christian writings on disability This book fills that gap Brian Brock and John Swinton's *Disability in the Christian Tradition* brings together for the first time key writings by thinkers from all periods of Christian history including Augustine Aquinas Julian of Norwich Luther Calvin Hegel Kierkegaard Bonhoeffer Barth Hauerwas and more Fourteen contemporary experts in theology and disability studies guide readers through each era or group of thinkers offering clear commentary and highlighting important themes Disability in Australia Gerard Goggin, Christopher Newell, 2005 Dares to name and explore a hidden blight in society the routine daily and oppressive treatment of people with disabilities Drawing on a wide range of case studies from health and welfare sport biotechnology deinstitutionalisation political life and the treatment of refugees this thoughtful lively and provocative work puts disability firmly on the agenda
