Curtis,2010-07-17 *Postapocalyptic Fiction and the Social Contract* We ll Not Go Home Again provides a framework for our fascination with the apocalyptic events The popular appeal of the end of the world genre is clear in movies novels and television shows Even our political debates over global warming nuclear threats and pandemic disease reflect a concern about the possibility of such events This popular fascination is really a fascination with survival how can we come out alive And what would we do next The end of the world is not about species death but about beginning again This book uses postapocalyptic fiction as a terrain for thinking about the state of nature the hypothetical fiction that is the driving force behind the social contract The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian a Lockean or a Rousseauian lens including *Lucifer s Hammer* by Larry Niven and Jerry Pournelle *Alas Babylon* by Pat Frank *Malevil* by Robert Merle and *Into the Forest* by Jean Hegland The latter half of the book examines Octavia Butler s postapocalyptic *Parable* series in which a new kind of social contract emerges one built on the fact of human dependence and vulnerability *Nordic Speculative Fiction* Jyrki Korpua,Aino-Kaisa Koistinen,Hanna-Riikka

Roine,Marta Mboka Tveit,2024-12-20 This volume brings together scholarly theories and practices on speculative fiction from the Nordic countries including Denmark Finland Iceland Norway and Sweden that are all rooted in similar values culture and history yet are independent and unique societies The book exhibits both the convergences and the diversity of the Nordics in fiction and fandom as well as in research It traces the roots of Nordic speculative fiction how it has developed over time and how the changes in Nordic environments and societies caused by overhanging shared global issues such as climate change mass migration and technological acceleration find space in speculative practices The first of its kind this book allows for

deeper insights into the unique characteristics that make Nordic literature and art recognisable and allows for a better understanding of the place of the Nordics within wider global culture systems The chapters range from literary critiques film and television studies creative works by three Nordic creative writers transcultural text comparisons and contributions on speculative art to theoretical and methodological discussions on fandom worldbuilding and semantics Part of the Studies in Global Genre Fiction series this book contributes to connecting Nordic speculative fiction scholarship to the wider global community within the field It will be of interest to scholars and general enthusiasts of speculative fiction and those with interest in Nordic fiction film and television studies literary culture or media studies comparative literature and cultural history or art based research

American Cities in Post-Apocalyptic Science Fiction Robert Yeates,2021-11-15 Visions of the American city in post apocalyptic ruin permeate literary and popular fiction across print visual audio and digital media American Cities in Post Apocalyptic Science Fiction explores the prevalence of these representations in American culture drawing from a wide range of primary and critical works from the early twentieth century to today Beginning with science fiction in literary magazines before taking in radio dramas film video games and expansive transmedia franchises Robert Yeates argues that post apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues Examining how the post apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible Chapters present media specific analyses of these texts situating them within their historical contexts and the broader history of representations of urban ruins in American fiction Original in its scope and cross media approach American Cities in Post Apocalyptic Science Fiction both illuminates little studied texts and provides provocative new readings of familiar works such as Blade Runner and The Walking Dead placing them within the larger historical context of imaginings of the American city in ruins

Sci-Fi Reader Trends Emily James,AI,2025-02-19 Sci Fi Reader Trends explores the curious paradox of science fiction a genre with often modest sales that wields significant cultural influence This book dives into how sci fi s futuristic themes vibrant fan culture and complex sales data interplay to shape our world Delving into the genre s ability to act as a speculative laboratory it examines how science fiction anticipates technological innovation and critiques social structures impacting fields far beyond literature Did you know that science fiction conventions serve as vital hubs for both creativity and community showcasing the deep engagement of its fans The book navigates the history of science fiction from utopian beginnings to cyberpunk futures while also exploring the sociological implications of its fandom It reveals that the cultural impact of science fiction outweighs its commercial success Each section of the book offers a unique perspective beginning with an introduction to core concepts and historical relevance then examining futuristic themes fan culture and sales data The analysis then culminates in offering insight into possible future directions for the constantly evolving genre

Global Science Fiction Gary Westfahl,2025-06-09

Science fiction represents a diverse community of writers and readers that spans the entire world. This collection provides a global tour of the genre with essays about Latin American, European, African, Arabic, Indian, Japanese, and Chinese science fiction, providing insights about how writers around the world have explored and reinvigorated the genre. Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S. Buckell, Lourenço Mutarelli, Stanislaw Lem, Masande Ntshanga, Tawfiq Al Hakim, Anil Menon, and Cixin Liu. The contributing scholars examine how national experiences have shaped these narratives, which often differ strikingly from Anglo-American science fiction. An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to Anglophone readers. An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world.

Future Yet to Come Sonja M. Kim, Robert Ji-Song Ku, 2021-09-30 South Korea is home to cutting edge electronics, state of the art medical facilities, and ubiquitous high speed internet. The country's meteoric rise from the ashes of the Korean War, 1950-1953, to rank among the world's most technologically advanced societies is often attributed to state led promotion of science and technology in nation building projects. With chapters that discuss Korea's dynastic past, foreign occupations, Cold War geopolitics, postwar rehabilitation in the twentieth century, and the contemporary neoliberal moment, *Future Yet to Come* argues that a longer historical arc and broader disciplinary approach better elucidate these transformations. The book's contributors illuminate the sociotechnical imaginaries that promoted sustained and contested Korea's scientific, medical, and technological projects in realizing desired futures. Focusing special attention on visual culture and the life sciences, the essays present competing visions held by individuals and institutions of power in the use and purpose of scientific engagements. They demonstrate Korean specificities in culture and language and the myriad social, political, spatial, and symbolic arrangements that shaped incorporations of and changes to existing systems of knowledge and material practices. Whether discussing moral epistemologies, imperialist or developmentalist thrusts in public health regimes, or new configurations of the self enabled by bio industries and media technologies, the book expands both the regional and global understanding of translation, accommodation, and transfer. Tracing imaginaries across the vicissitudes of Korea's past, recalls their history, and makes visible their shifts and resilience in dynamic political economies. *Future Yet to Come* reminds us how deeply intertwined science, medicine, and technology are to not only our politics, corporations, and societies, but also the human condition. Bridging histories of science and medicine with anthropologies of technology and the arts, the book will appeal to students and scholars of Korean and East Asian studies, as well as those with interests in the comparative history of medicine, STS, society and technology studies, art history, media studies, transnationalism, diaspora, and postcolonialism.

Genre Transitions in Contemporary Fiction Selin Şencan, 2025-09-09 This volume explores how contemporary fiction responds to global challenges by reshaping genre conventions and narrative forms. The book brings together twelve chapters that examine themes of identity, memory, history,

speculative imagination and survival in works that cross boundaries of form nation and discipline Contributors examine a range of contemporary concerns offering critical insights into literary innovation in the twenty first century Through close readings of a diverse group of canonical and contemporary writers the collection highlights how hybrid narrative modes enable fiction to address shifting social realities Drawing from postcolonial feminist ecocritical trauma spatial memory speculative historical decolonial and posthumanist approaches the chapters explore how genre responds to crisis transformation and the demands of contemporary thought This book will appeal to scholars of English literature cultural and literary theory and genre studies offering both global perspectives and locally grounded analyses of literary form Its wide range of genres and applied critical frameworks also makes it a valuable resource for teaching and studying contemporary fiction

Global Indigenous Horror Naomi Simone Borwein, 2025-04-15 Contributions by Katrin Althans Jayson Althofer Naomi Simone Borwein Persephone Braham Krista Collier Jarvis Shane Hawk Jade Jenkinson June Scudeler and Sabrina Zacharias *Global Indigenous Horror* is a collection of essays that positions Indigenous Horror as more than just a genre but as a narrative space where the spectral and social converge where the uncanny becomes a critique and the monstrous mirrors the human While contentions swirl around the genre category this exploratory anthology is the first critical edited collection dedicated solely to ways of theorizing and analyzing Indigenous Horror literature The essays curated by scholar Naomi Simone Borwein ask readers to consider what Global Indigenous Horror is and to whom The volume opens with a preface by international bestselling horror writer Shane Hawk enrolled Cheyenne Arapaho Hidatsa and Potawatomi descent followed by an overview of Global Indigenous Horror trends aesthetics and approaches The carefully selected contributions explore Indigenous Horror literature and mixed media narratives worldwide unraveling the intricate dynamics between the local and global traditional and contemporary and human and monstrous Contributor chapters are grouped not by geographical or cultural variation but along a spectrum from a strong emphasis on ways of knowing to a critical inspection of Horror through Indigenous Gothic aesthetics across cultural boundaries and against and beyond nation states

Apocalyptic Projections Annette M. Magid, 2015-06-18 *Apocalyptic Projections* have been pondered since Biblical times Theories abounded in an attempt to prepare for calamity and plan for the future Worldwide concern regarding a twenty first century apocalypse related to the 2012 Mayan Apocalyptic prediction sparked renewed interest Even though the concept of apocalypse evokes

images of total oblivion threads of possibility and redemption offer a potential fabric of hope The majority of the papers included in *Apocalyptic Projections* were published in *Yesterday's Tomorrows* Pere Gallardo, Elizabeth Russell, 2014-03-26 2012 was a year of financial crises and ecological disasters of endings and forebodings The world did not end on December 21st as the Mayan calendar predicted but became the stage for new beginnings utopian communities protest groups and solidarity movements The essays in this book form an intertextual space for negotiating meaningful facts and fictions with an aim to understanding the present Discussions focus on utopia and dystopia from literature and film not only within the framework of science fiction but also critical theory gender politics and social sciences The authors of these essays are international academics whose interest lies in utopian studies and who attended the 13th International Conference of Utopian Studies *The Shape of Things to Come* held in Tarragona Spain in 2012 **Handmaiden of Death: Apocalypse and Revelation**

Alexandra Simon-López, Mankhrawbor Dunai, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 The future holds many secrets that it will not reveal to us easily Pry as we may the curtain of mystery is too difficult to completely unveil It is no surprise therefore that there have been many attempts to imagine what these future possibilities may be More often than not the future projections inevitably paint a picture of desolation and destruction The varying social as well as environmental forces that assault our world always seem to indicate an impending doom around the corner if we don't buck the trend of passive disregard for the ills of the present world The apocalypse seems like an inevitable event This volume therefore does brilliantly in capturing this quest for answers in a world that seems to be hurling towards different imaginings of the end Whether imagined through the voices of doomsayer prophets the wonderfully expressive lens of the digital media or the pages of literature the volume will take the reader through the different discourses regarding the apocalypse and what we can learn from it To safeguard our future this volume seeks to offer answers to prevent our world from going up in flames Urban Transition Marita Wallhagen, Mathias Cehlin, 2023-12-20 This book assembles the latest knowledge linked to urban environments and urban socio eco technological systems including urban energy transport material and ecosystems Urban environments and systems affect every person's life in many ways and can have negative impacts on the local and global environment They create value but sometimes with a high environmental cost from a lifecycle perspective Therefore scientists and global leaders call for an urban transition to create more urban environments and systems that are climate positive sustainable and healthy which is necessary for society to function within the planetary boundaries This is a great challenge Huge transformations and new ways of thinking regarding the design and co existence of technical social and ecological systems are necessary to turn the present challenge into opportunities This book *Urban Transition Perspectives on Urban Systems and Environments* explores this challenge and several different topics related to possible probable or necessary urban transitions in the urban environment It assembles a variety of authors who present many aspects and the latest knowledge linked to urban transitions of the urban environment and urban socio eco

technological systems including urban energy transport building material and eco systems Furthermore the importance of urban systems and urban environments is seldom clearly linked to their impact on the environment and humans This book examines this gap the crucial issues relating to how urban systems influence the urban structure and how they can be formed and designed to become more sustainable It explores the link between the complex systems in cities the physicality of the built environment and the living environments for the people The book proposes a rich garden of ideas to provoke and develop current research debate and new forms of practice
