Productivity Guide: How To Get Focused At Work? Chris Diamond, Are you getting sidetracked from your work as a result of distractions worrying wondering and curiosity Today we do not just live in the information age but in the Distractions Age There's so much going on around us but our available time seems to shrink even more I decided to create this productivity report for a few reasons 1 Business does not always mean productive work You'll learn how to get clean focus and improve your concentration on your tasks in order to get them done without procrastinating

and postponing the important stuff Moreover you ll feel less busy and accomplish a lot more as a result 2 Most people consider multitasking as a good strategy to get things done Now that s very disturbing to me because I am going to show you how multitasking can HURT your productivity and what you have to do instead page 5 3 Most business owners hesitate about opportunities and not taking proper action to get things done I am going to show you how to battle this temptation and break free from the paralysis of fear and uncertainty that are causing inaction doubts and procrastination A good analogy of this is when you go to swim on a public swimming pool People who are about to jump in ALWAYS bother those who are already in the pool with the boring questions Is the water warm How deep is it Can I jump in What if I drown Just get in there and see for yourself The very same hesitation is causing people to neglect opportunities for achieving a better lifestyle in their business You ll learn what you need to do to eliminate this hesitation and jump in the pool with other successful people You become who you surround yourself with 4 A lot of people react on things based on an emotional impulse I am going to outline the difference between REACTION and RESPONSE page 7 That s because if you can t distinguish the urgent from the important you are less likely to achieve the result you want 5 Most people confuse activity with productivity If you understand the difference between both you ll be able to focus and become dramatically more productive at your work page 7 6 Most of us have a lot that s going on in our heads We can t clearly focus on things because we have all those distracting thoughts while trying to work I am going to show you a very powerful technique that s going to solve this problem once and for all page 8 Surprisingly enough I ve learned this from Bruce Lee I do not know anything about martial arts in order to apply his principles You ll see what I mean when you get to page 8 of this productivity report 7 A lot of people today with the invention of Facebook Twitter and other time wasters on the Internet find a hard time to organize their time for work Even if you have a lot of commitments demands and obligations you are always short on time to work and do what s important to you That s why in this productivity report I am going to show you how to work more effectively spending less time to work and accomplishing a lot more as a result See page 10 What does Golden Nuggets Edition mean This productivity report is a result of a lot of research and study from various sources on time management and personal productivity It contains powerful strategies on how to get more focused which took me literally YEARS to learn through trial and error Important All purchases of this title How To Improve Concentration And Stay Focused At Work will get an additional Productivity Report Unleash Your Profit Potential By Killing All Mental Interruptions for free Simply visit www.DoubleTimeToday.com free to claim your free productivity report after purchase About The Author Chris Diamond is the founder of DoubleTimeToday.com which is a website that helps business owners and entrepreneurs to meet their time management and personal productivity challenges with confidence

Policy guide to improve water productivity in small-scale agriculture Food and Agriculture Organization of the United Nations, 2020-05-01 In developing countries further progress of irrigation is essential for increasing food security and farmers income However developing small scale schemes remains a challenge due to multiple

factors that must be taken into consideration such as diversity of small scale schemes a large number of water users social disharmony over the water use varying water demands of multi cropping systems heterogeneity of equipment over the scheme Furthermore on farm irrigation development has a major role in enhancing Agricultural Water Management AWM The previous development methods considered the improvement of single factor productivity but agriculture is undergoing a global shift from the single objective of outputs such as yield or net income to multiple objectives of increasing outputs while conserving natural resources Many pathways towards enhancement of Water Productivity WP are directly related to improving overall farm agronomic management irrigation fertilization plant density plant protection etc while external measures must be applied to ensure sustainability of introduced good practices lack of input markets scarce knowledge poor infrastructures water regulations etc Thus introducing irrigation practices to farmers must undergo a step wise process to ensure that costs do not outweigh achievable benefits and both institutional and technical environment are capable to sustain results This is the case in smallholders schemes where farmers are poorly resourced In order to address these issues the current policy guide presents a combined methodology which involves practical experiences drawn from FAO work in the three countries as well as researchers results to line up a set of feasible measures to improving WP Field guide to improve crop water productivity in small-scale agriculture Food and Agriculture Organization of the United Nations ,2020-04-01 By 2050 the world s population will reach 9.1 billion which requires an increase of food production by 70 percent compared to 2005 FAO 2018 Nearly all the increase will occur in developing countries where agriculture plays a major role to provide employment income and to improve food security One of the major challenges of increasing food supply is the limited water resources Agriculture as the driver of freshwater exploitation has therefore to be transformed into more resource efficient production FAO 2003 The world s limited freshwater resources are potentially threatened by the expansion of agriculture Increasing the potential output per amount of water used is an appropriate practice to improve production efficiency while protecting water resources Therefore increasing the productivity of agricultural water use in a sustainable manner is essential to ultimately sustain the social and economic conditions of livelihoods Crop water productivity has grown into one of the major approaches to cope with water scarcity and advance crop water relation The number of conceptual frameworks and implications is ample but there is always a growing need to review the step by step approach beyond In this Field guide practical pathways are presented to provide a comprehensive approach for assessing and improving crop water productivity in small scale agriculture The Field guide draws lessons learned in three countries Burkina Faso Morocco and Uganda within the framework of FAO project Strengthening Agricultural Water Efficiency and Productivity at the African and Global Level funded by Swiss Agency for Development and Cooperation SDC *A Practical Guide to Theoretical Frameworks for Social Science Research* Andrea J.
