

Strong Framework Structures

A frame structure is usually made from a combination of beams, columns, and walls. If used in the right way, we can make a strong structure. Let's look at some shapes in framework structures.

1. Which of these shapes will collapse when you push on it from the side or push around?

2. Which shape do you think is the strongest?

3. Is there anything we can do to the weaker structure to make it stronger? What?

4. What shape does the table when you strengthen the weaker shape?
